PROFILE

Motivated and detail-oriented PHP/Laravel Developer with hands-on experience in building and maintaining dynamic web applications. Skilled in PHP, Laravel Framework, MySQL, HTML, CSS, and JavaScript with a solid understanding of backend logic and RESTful API development. Demonstrates strong problem-solving abilities, time management, and teamwork in fast-paced environments. Adept at managing multiple tasks efficiently while ensuring high-quality results. Eager to contribute technical expertise and a strong work ethic to achieve company goals and deliver outstanding solutions.

WORK HISTORY

WEB DEVELOPER (PHP DEVELOPER), 03/2025 - Continue

Adeptcodes Software House

- Currently working on the **UFast Learning** project — a large-scale e-learning platform that provides subscription-based educational content to users.
- Developed and maintained the web-based admin panel using **CodeIgniter**, handling user management, subscription reports, and payment logs.
- Integrated **JazzCash**, **Easypaisa**, and **Telenor DCB** payment gateways to automate user subscription and payment deduction processes.
- Built and optimized multiple **Laravel-based APIs** for the UFast mobile application to enable smooth communication between app and backend.
- Improved performance and security in payment modules, ensuring accurate and reliable transaction tracking.
- Enhanced the payment module's performance and ensured accurate tracking of transactions and subscription renewals.

WEB DEVELOPER (PHP DEVELOPER), 01/2024 - 02/2025

OC Analytica Software House

- Currently working on a PHP project for the mobile repair industry, developing the POS system at <https://pos.omnisell.ai>
- Part of a two-person team focused on enhancing the POS system's functionality, performance, and user experience.
