LOCATION Islamabad, Pakistan · Pakistani

ABOUT ME

Software engineer with a BS in Computer Science and more than four years of professional experience designing and building web applications with PHP, Laravel and CodeIgniter. Hands-on experience with subscription platforms, mobile-payment gateway integration (JazzCash, Easypaisa, Telenor DCB), REST API development, admin panels for repair-shop clients and medical-billing systems. Delivered 40+ client projects. Reliable team member who works well on multiple tasks and delivers on deadlines. Applying for a Master's programme in Computer Science / Software Engineering to strengthen my theoretical foundations in software architecture, databases and algorithms, and to contribute to research-oriented work in an international environment.

EDUCATION AND TRAINING

2016 – 2022

Bachelor of Science (BS) in Computer Science

International Islamic University, Islamabad, Pakistan

Main subjects: programming, data structures, database systems, software engineering, web development, analytical problem solving.

Certification

Professional Web Development Course

Sina Institute of Networks and Aesthetics, Islamabad, Pakistan

PHP, Laravel, HTML, CSS, JavaScript and MySQL.

WORK EXPERIENCE

March 2025 – October 2026

PHP Laravel Engineer

Shrewd Codes (Private) Limited, Islamabad, Pakistan

- Develop and maintain **UFast Learning**, a large-scale subscription-based e-learning platform.
- Built the CodeIgniter admin panel covering user management, subscription reports and payment logs.
- Integrated **JazzCash, Easypaisa and Telenor DCB** gateways to automate subscriptions and payment deductions.
- Designed and optimised Laravel REST APIs for the mobile application.
- Improved performance, security and transaction tracking of payment and renewal modules.

January 2024 – February 2025

Web Developer

OC Analytica, Pakistan

- Built and maintained websites and PHP admin panels for independent device-repair businesses, working alongside a senior developer.
- Embedded the Instant Repair Quote widget (iframe) into client sites, letting customers select their device and repair service and request a quote.
- Delivered **40+** similar client projects, including Ur Broken Phone and I Fixit ASAP.

February 2023 – August 2023

Laravel Developer

Aiwatech, Islamabad, Pakistan

- Developed Laravel modules for **TruCare**, a medical billing, credentialing and accounts-receivable management system.

September 2022 – January 2023

Laravel Developer Intern

The Revolution Technologies, Rawalpindi, Pakistan

- Built dynamic web applications with Laravel, following coding best practices and optimising performance.
- Collaborated with the team on Laravel projects and managed MySQL databases.

SELECTED PROJECTS

- **UFast Learning** – E-learning platform with subscriptions, mobile APIs and mobile-payment integration. (ufastlearning.com)
- **Ur Broken Phone** – Repair-shop website with Instant Repair Quote widget and admin panel. (urbrokenphone.com)
- **I Fixit ASAP** – Repair, buy/sell and financing website with quote flow and admin panel. (ifixitasap.com)
- **TruCare** – Laravel client portal and billing modules for a medical billing company. (gettrucare.com)
- **Text2U** – Website for a captioning, caption-systems and webcasting services company. (text2u.com)
- **American Fire Products** – E-commerce store for fire glass, lava rock and fire-pit burners. (americanfireproducts.com)

DIGITAL AND TECHNICAL SKILLS

AREA	TECHNOLOGIES	LEVEL*
Backend development	PHP, Laravel, CodeIgniter, MVC, Eloquent ORM, REST APIs, JWT authentication	● ● ● Proficient
Databases	MySQL (design, optimisation, indexing), PostgreSQL	● ● ● Proficient
Frontend	HTML5, CSS3, Bootstrap	● ● ● Proficient
Frontend scripting	JavaScript, jQuery, AJAX; React.js (basic)	● ● ○ Independent
Integrations	Payment gateways, third-party APIs, Postman	● ● ● Proficient
Tools	Git, GitHub, Composer, VS Code, XAMPP, Figma, Slack, AI tools (Claude, ChatGPT, Gemini)	● ● ○ Independent

*Self-assessment (Europass scale): Basic user · Independent user · Proficient user.

LANGUAGE SKILLS

Mother tongue(s)
Urdu, Punjabi

Other language
English
Professional working proficiency

PROFESSIONAL SKILLS

Communication
Clear communication
Clear technical communication with team members and clients; documentation of code and APIs.

Organisation
Time & task management
Managing several tasks and deadlines at once; working in small, fast-paced teams.

Job-related
Full-cycle development
Full-cycle web application development: requirements, database design, backend logic, integration and maintenance.
